Developmental Hip Dysplasia and Dislocation: What I Have Learned Over the Last 46 Years

Stuart Weinstein, MD

Ignacio V. Ponseti Chair and Professor of Orthopedic Surgery
Department of Orthopedics and Rehabilitation
Professor of Pediatrics
University of Iowa Hospitals and Clinics

Stuart Weinstein, MD, will present lessons from a career focused on the management of congenital pediatric orthopedic pathologies of the hip, from mild dysplasia to congenital hip dislocation. Dr. Weinstein will share insights from five decades of research, clinical practice, education and the evolution of our understanding of the pathogenesis of these conditions and how to successfully treat them in and out of the operating room.
