Dear Corporate Partner,

It is our pleasure to invite you to support the **Pre-Intern Training for Vascular Residents: “Jump Start” Your Training** event on June 20, 2022 – June 22, 2022 at Houston Methodist Institute for Technology, Innovation & Training (MITIE).

Please see the below options to provide Exhibitor and Sponsorship support. The sponsorships are limited to the purchase of only one sponsorship option. In addition, if you are interested in providing grant support or product for the hands-on training portion of the course as an in-kind donation, then please contact Elizabeth Arredondo (rdminor@houstonmethodist.org) and mitieevents@houstonmethodist.org for more information.

Program Overview

This course is designed for fourth year medical students who have matched into integrated vascular surgery residencies. During this 3-day intensive mini-fellowship, the attendees will learn the basics of surgical anatomy, suturing, and vascular repair. Topics will include Carotid Repair and Arthrectomy, Axillary access and repair, Brachial access and bypass, Femoral vessel access, bypass and repair, and Abdominal Aortic Access. The program features lecture and hands-on training in a state-of-the-art facility Houston Methodist Institute for Technology, Innovation and Education (MITIESM) by world-class faculty. There will also be excellent opportunities for networking with the faculty and others.

Needs Assessment

This course provides fourth-year medical students who have matched into integrated vascular surgery residency programs with basic and advanced training in surgical anatomy, suturing and vascular repair. During this course, students will begin with opening incisions, progressing through maintaining proper visual fields during surgery, repairing targeted anatomy and closure of the operative site. Training in these skills and techniques is important to better serve patients, improve outcomes and maintain a competitive advantage. The goal of this course is to provide up-to-date evidence-based didactic lectures along with expert-instructed hands-on exposure proctored by leading vascular surgeons.

Educational Objectives

Upon completion of the conference, participants will be able to:

- Understand and be well versed in skills of open access vascular repair for vascular disease treatment
- Apply basics of surgical anatomy, suturing and vascular repair
- Recognize and gain a greater understanding of the following procedures: Carotid Repair and Arthrectomy, Axillary Access and Repair, Brachial Access and Bypass, Femoral Vessel Access, Bypass and Repair, and Abdominal Aortic Access
- Attendees will know how to gown and scrub, identify instrumentation and devices, place central lines, perform ABIs, and master basic suturing techniques
- Assess and identify basic floor issues, emergencies, basic ultrasound principles and radiation safety

Educational Methods

Didactic Lectures, Hands-on Workshops

Evaluation Methods

Evaluation by questionnaire will address program content, presentation, and possible bias.
