Thank You to Our Sponsors:

Patricia Levy Zusman was a devoted wife, mother of four and loving grandmother to eight when she died of complications from Parkinson's disease. Patricia was no stranger to neurological diseases — her grandmother faced ALS and her granddaughter faces Rett Syndrome.

Despite her personal struggles, she dedicated herself to making the world a better place. She fought for equality for women through her work with the League of Women Voters and the National Council of Jewish Women. She volunteered at her children's schools, libraries and her local hospital. She would be so proud of the work that each of you are doing in neuro restoration. With each step and each breakthrough, you honor her memory.
